

## AIRCARD® 775

WIRELESS WIDE-AREA PC CARD FOR EDGE AND GSM/GPRS NETWORKS

### >>| **WORLDWIDE WIRELESS FOR THE WORLD WIDE WEB\***

The AirCard 775 is a quad-band wide area wireless network card supporting all the different frequencies used by EDGE and GSM/GPRS networks worldwide. Users around the globe can enjoy the freedom to have access to critical information wherever they are located on both EDGE and GSM/GPRS networks.

### >>| **HIGH-SPEED PERFORMANCE**

At data rates up to three times the speed of GPRS, the AirCard 775 provides users with ease of use to transfer large files, download graphic heavy information, send/receive SMS messages and receive large amounts of data quickly, to stay connected during their busy day. With the AirCard 775, users can stay connected on EDGE networks at average speeds between 100-130 kbps\*, supporting speeds up to 216 kbps.

### >>| **SLIM, LEADING EDGE DESIGN FOR EASY STORAGE AND USE**

The slim profile of this unextended type II PC Card coupled with its removable swivel mount antenna make it easy to handle, store and use. Users can store their AirCard inside their laptop or remove it for storage.

### >>| **SIMPLE INSTALLATION AND USE**

The AirCard 775 seamlessly integrates into Windows® notebook or handheld devices. The easy-to-use software helps you install, configure and manage your AirCard easily and with low power consumption for extended battery life, the AirCard provides users with superior product performance.

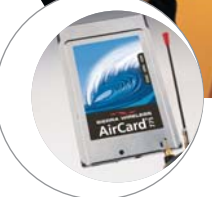

### >>| **SIERRA WIRELESS AIRCARD 775 INNOVATIONS ADVANCE THE AIRCARD FAMILY**

The proven technology of the Sierra Wireless AirCard wireless network card family has established the leadership of Sierra Wireless in designing breakthrough wireless connectivity products.

Sierra Wireless is your only source for wireless data.
